

# ***Dash Evolution - Reinventing Cryptocurrency***

Miami, 22<sup>nd</sup> January, 2016

# What is Dash?

- **Two-tier crypto-currency architecture**
- **Instant & private transactions**
- **Decentralized governance & funding**
- Properly **incentivized infrastructure**
- 25M USD market cap
- 10,000+ users

# Unique Dash Features

**Double-Spend Proof!**

**Instant Transaction Confirmations**

**Privacy and Fungibility**

**Decentralized Funding and Governance**

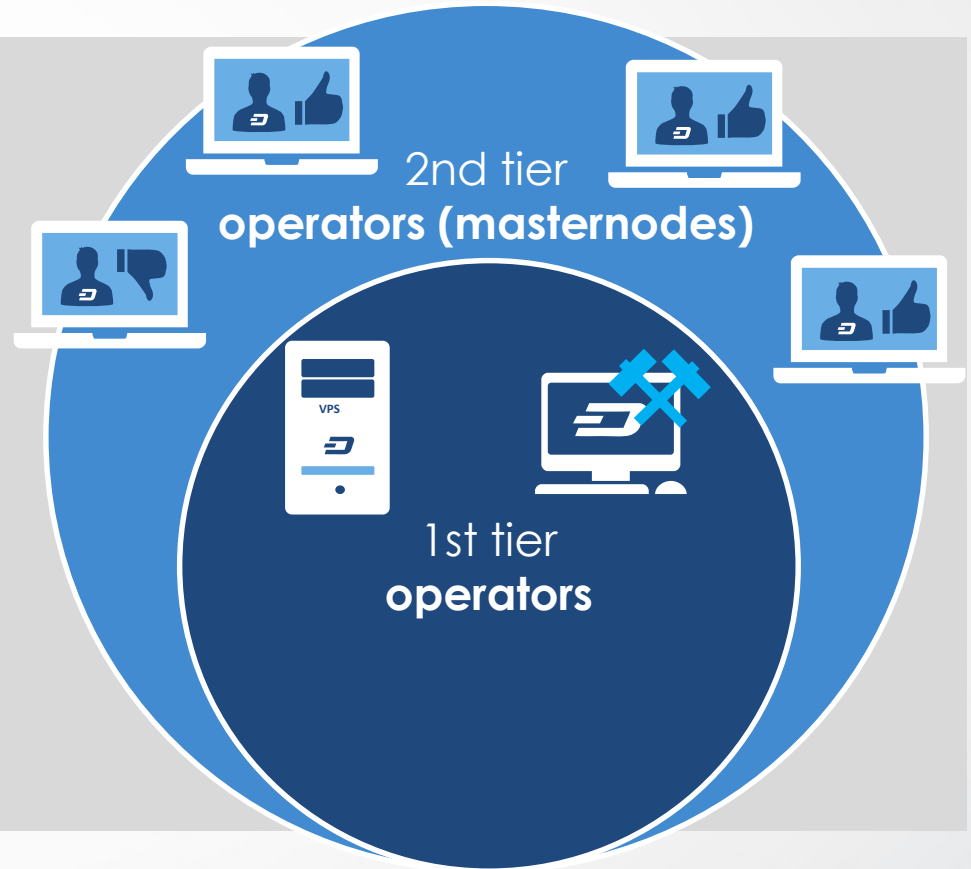

**Decentralized Infrastructure**

# What is a Second Tier?

- Second tier nodes **run all services on our network** (InstantX, privacy, Dash Evolution)
- Administrators run Dash network **for profit**
- Improved **scalability**

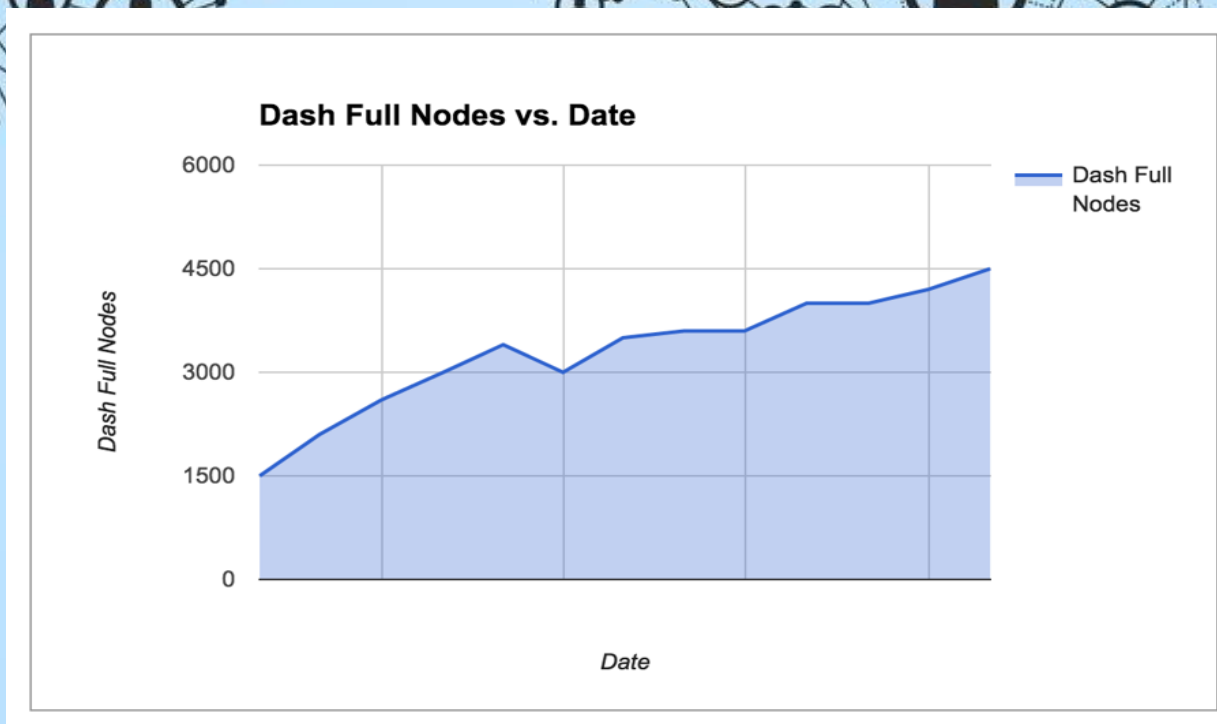

# Second Tier Governance and Funding

- We poll second tier to make **decisions about funding**
- **Funds come directly from the blockchain**
- **Anyone** can receive funding (e.g. InstantX soda machine or DailyDecrypt)

# How the Second Tier Works for Dash?

- Added **3500 Masternodes** to strenghten infrastructure
- Decentralized administrators to support network
- Innovative Dash features to provide services

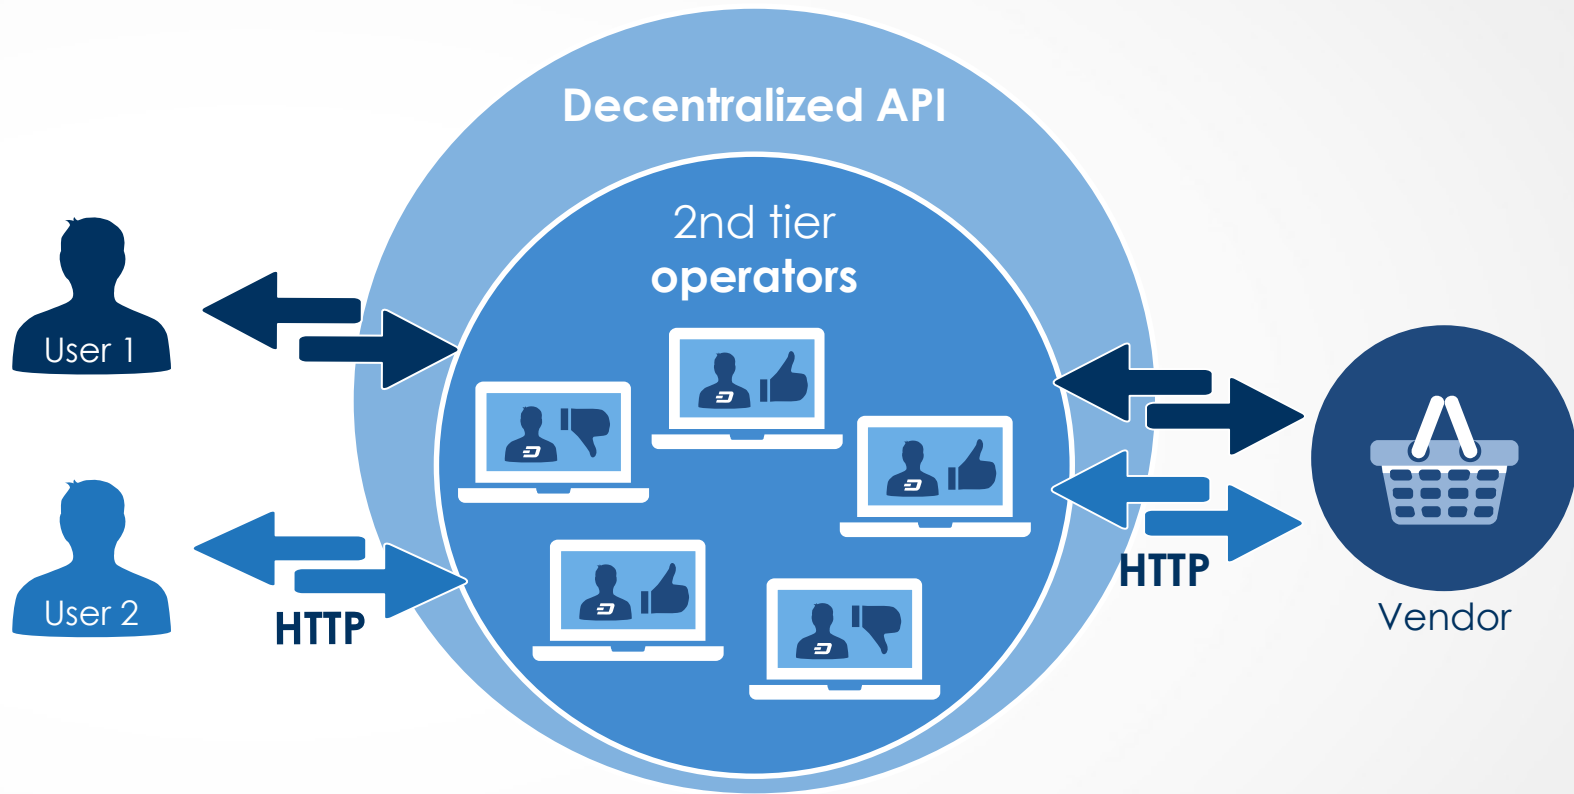

# What is Next for Dash?

- User friendly crypto currency
- Fully web / mobile enabled
- Decentralized eCommerce
- Decentralized competitor to PayPal and Google Wallet

## Dash Evolution

An illustration titled "Dash Evolution" set against a blue background with a world map and binary code. On the left, a hand with a watch points at a laptop screen displaying charts and graphs. In the center, a smartphone displays a colorful interface with various icons, including a coin icon. On the right, several Euro banknotes and gold coins are scattered, symbolizing digital currency and global transactions.

# Websockets – Third Tier Transport
