

# Dash

# Evolution & Beyond

Creating the world's first decentralized bank<sup>1</sup>

#### **Dash Network Statistics**

#### What is a Decentralized Bank?

#### How is Dash better than Bitcoin and Banks

	Bitcoin	Bank	Dash
Web / Mobile access	No <sup>*</sup> <b></b> ✓	Yes 🗸	Yes 🗸
Username / Password	No 🔀	Yes 🔽	Yes 🗹
Instant payment processing	No 🔀	No 🔀	Yes 🗸
Pay to user	No 🔀	Yes 🗹	Yes 🗸
Decentralized	Yes 🗸	No 🔀	Yes 🗸
ACH / WIRE	No 🔀	Yes 🗸	Yes 🗸

<sup>\*</sup> unless via centralized gateway

## How do you fund something like this?

- VC Funding?
- Foundations?
- IbOs

#### How does Dash work?

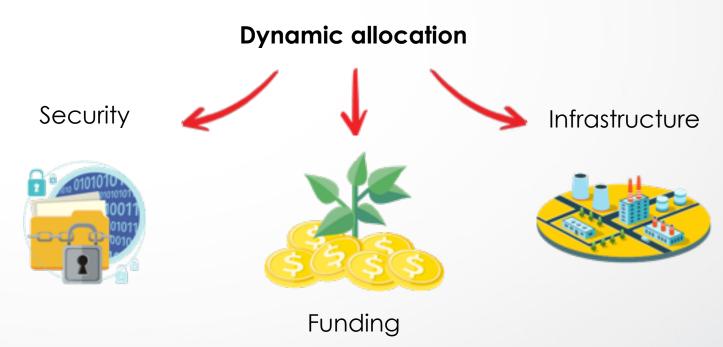

- Blockchain funding
- The larger our project gets the more funding we have to utilize

### **DASH Decentralized Funding Model**

- 5.6MM total blockchain based funding<sup>1</sup>
- 45% on Infrastructure
- 45% on Security
- 10% on Ecosystem Budgets (project funding)

# How is Bitcoin using the Block Reward?

**\$436M** on mining security per year<sup>1</sup>

How much waste is enough?

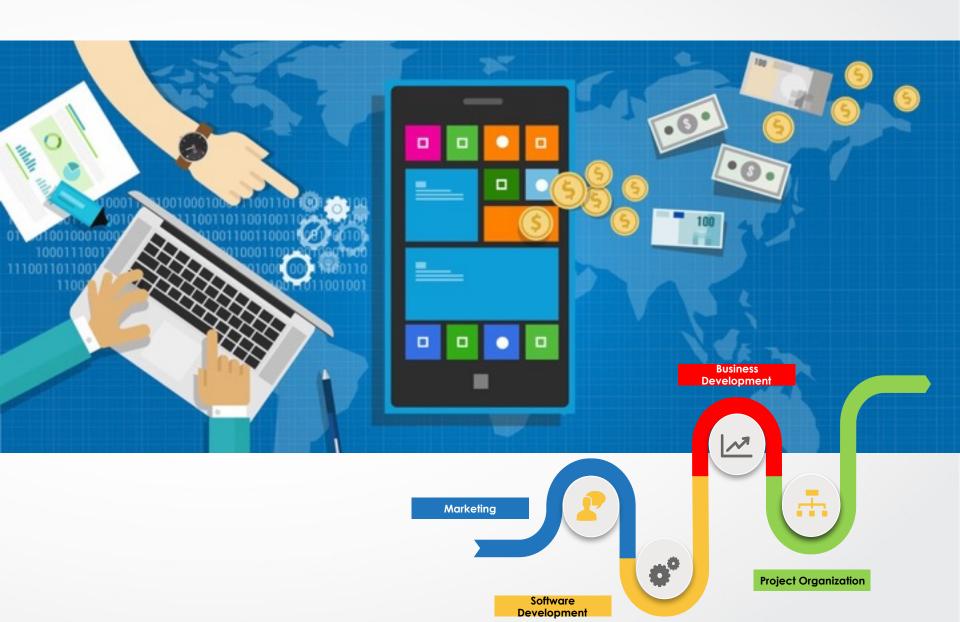

#### The Solution: Masternode

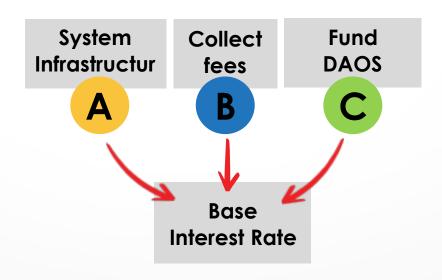

#### **Evolution Rollout Plans**

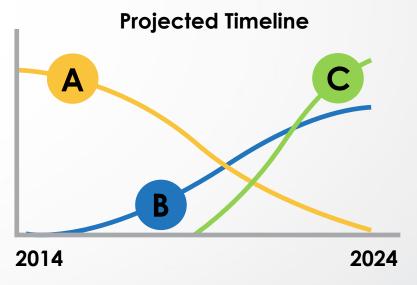

### Interest Bearing Accounts

- Dash second tier investment earn about 10% ROI
- However this declines to zero over a period of many years
- We plan on slowly changing to a sustainable model of creating interest accounts over a period of 10 years

### **BACKUP SLIDES**
