- To provide a more accurate accounting picture, Dash's accounting is denominated in USD
- Core team collected ~\$311k from the network in H2 2016 (as measured at the time of distribution)
- Because of the price increase during the period, Dash experienced over \$25k in currency gains
- Uncategorized expense and income are generated by DASH to BTC trading → the difference is trading profits of \$252 during H2 2016
- Excluding currency and trading gains, Dash core team accumulated ~\$50k in reserves during the second half of 2016; these enable a buffer against exchange rate and expense risks
