

What Is Dash Evolution?

Atlanta Blockchain Meetup

What is Dash?

Innovative Crypto-
currency

Working DAO
(since Aug'15)

User-oriented
features

Incentivized
Infrastructure

\$90M marketcap
15k Users

Why Dash?

- **DAO organizational model**
- **Funded via our own blockchain**
- **Directed via decentralized voting mechanism**
- **Support for Instant Transactions and Privacy**
- **Easy to use functionality coming soon**

Innovation

Unique Dash Features

Instant Transactions

Privacy and Fungibility

Decentralized Decision Making

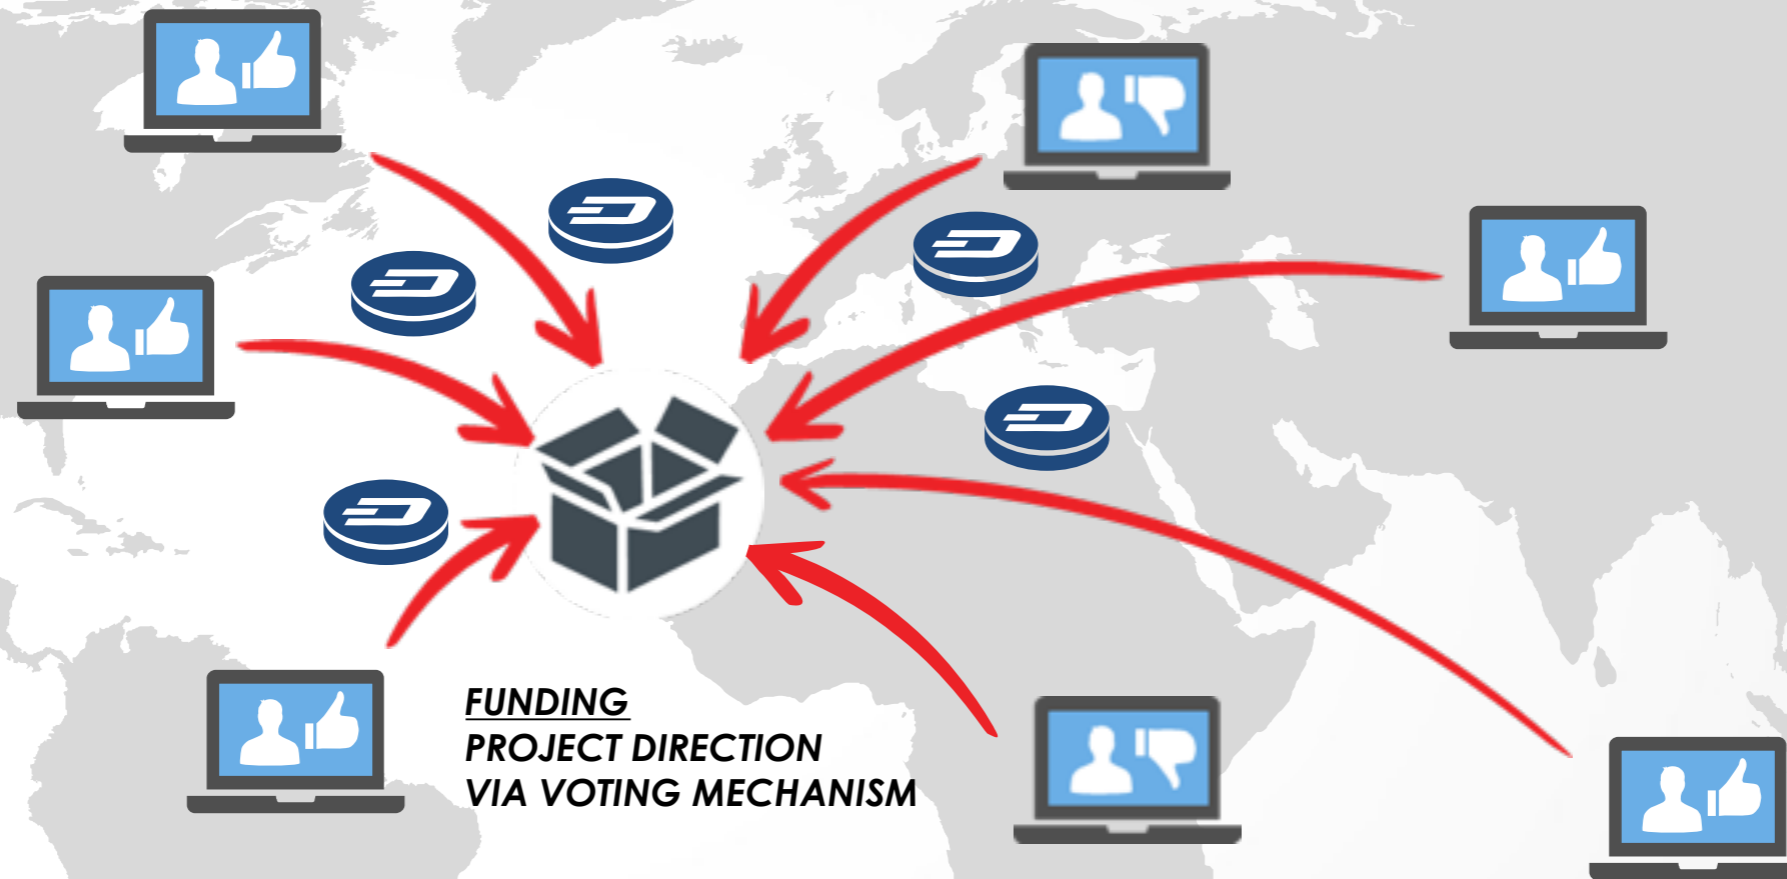

Decentralized Infrastructure

Decentralized Decision Making

(e.g. Decentralized Governance)

- Decentralized decision-making process
- Blockchain as a source of project funding
- Decentralized Autonomous Organization (DAO)

DASH Decentralized Funding Model

Dynamic allocation

Security
45%

Infrastructure
45%

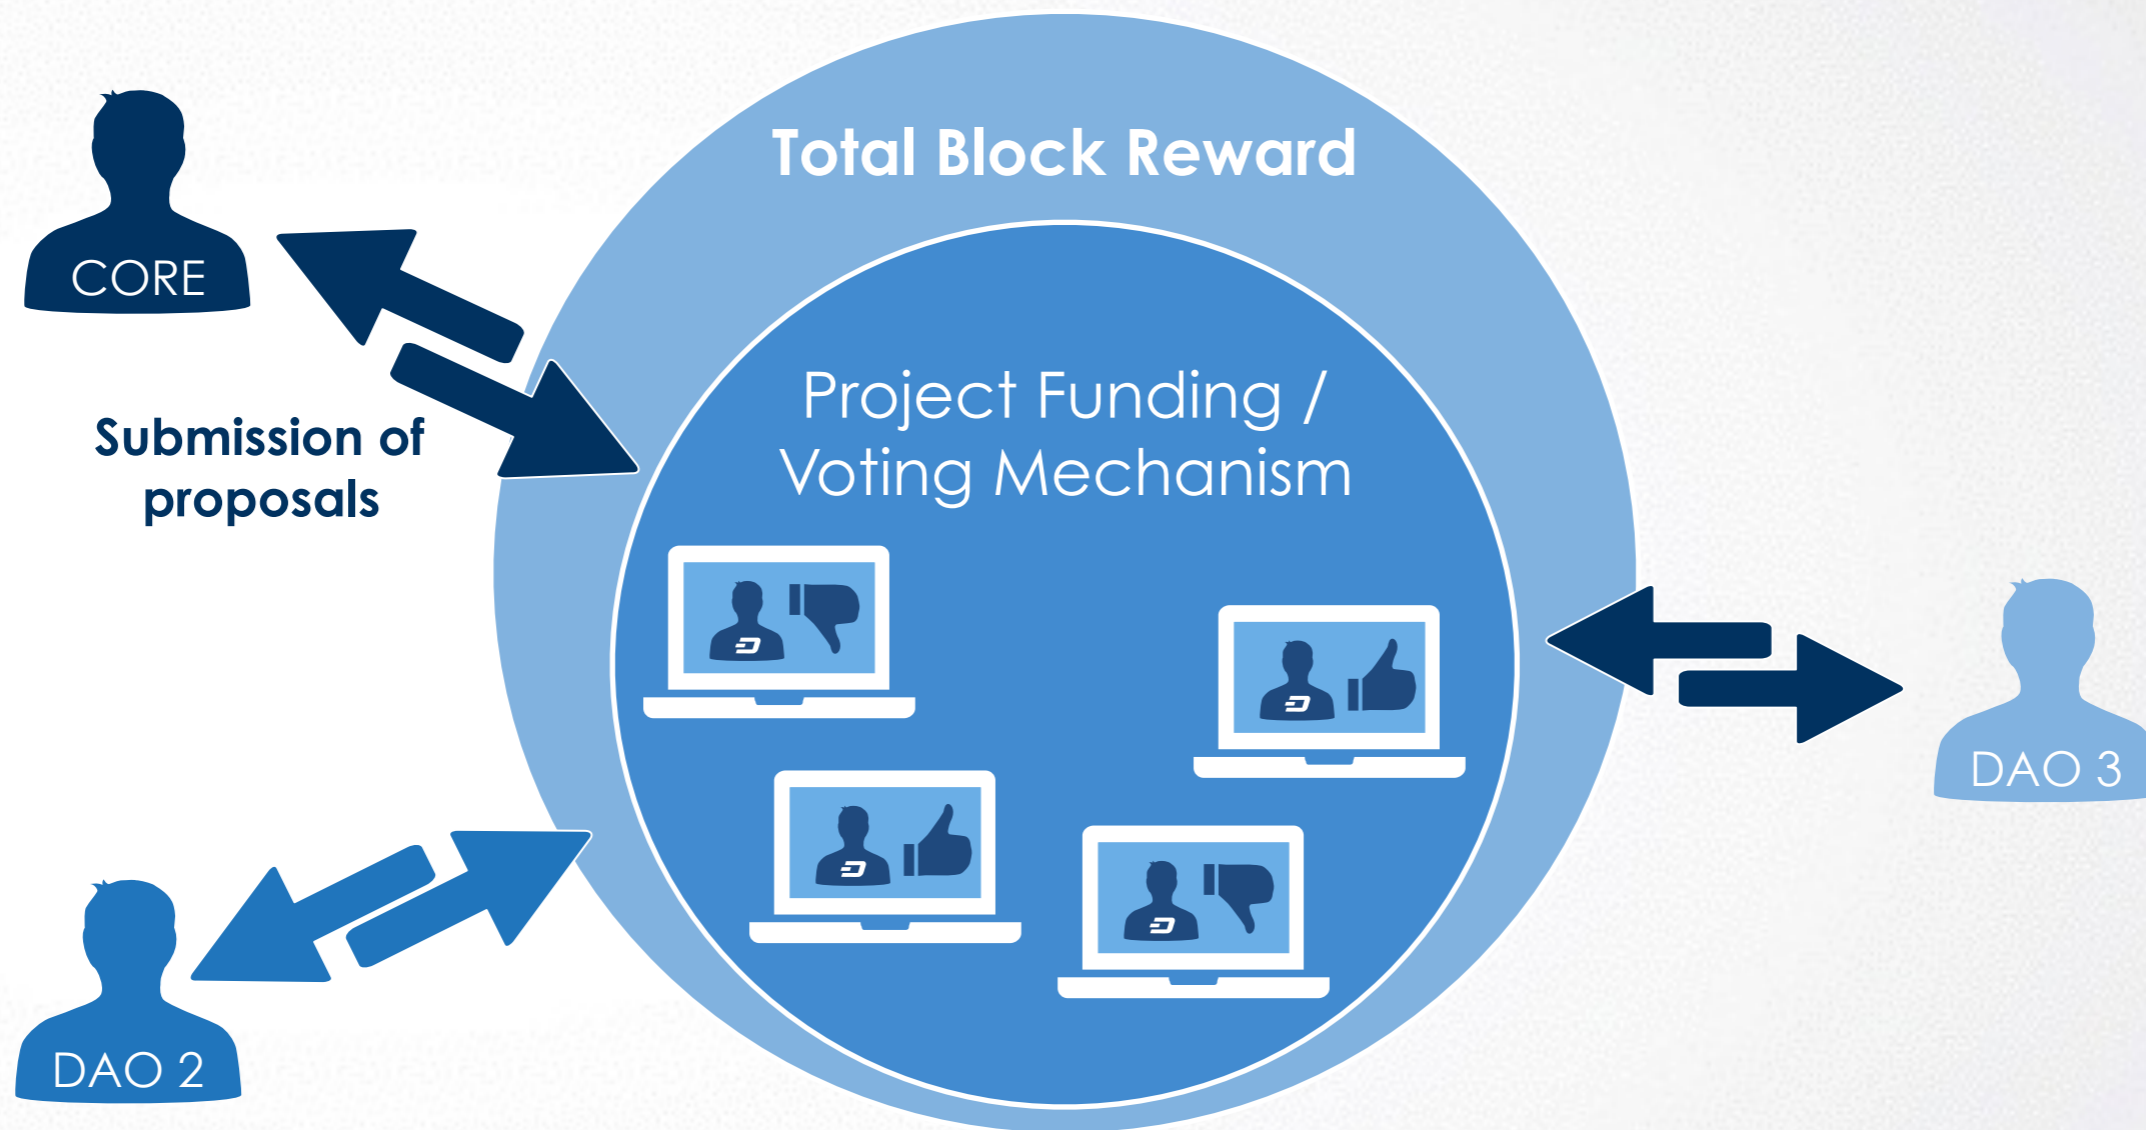

Project funding
10%

\$1.2M/year blockchain based funding¹

1. \$13.30 per DASH

10% Funding System Breakdown

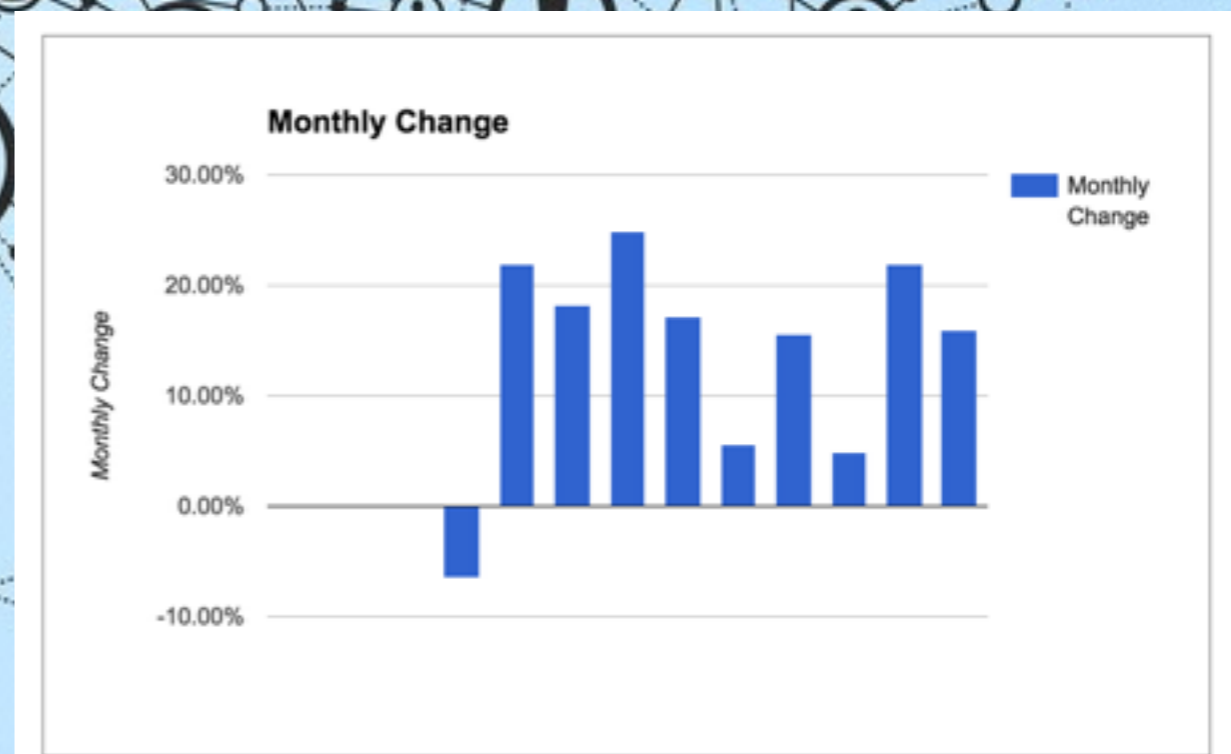

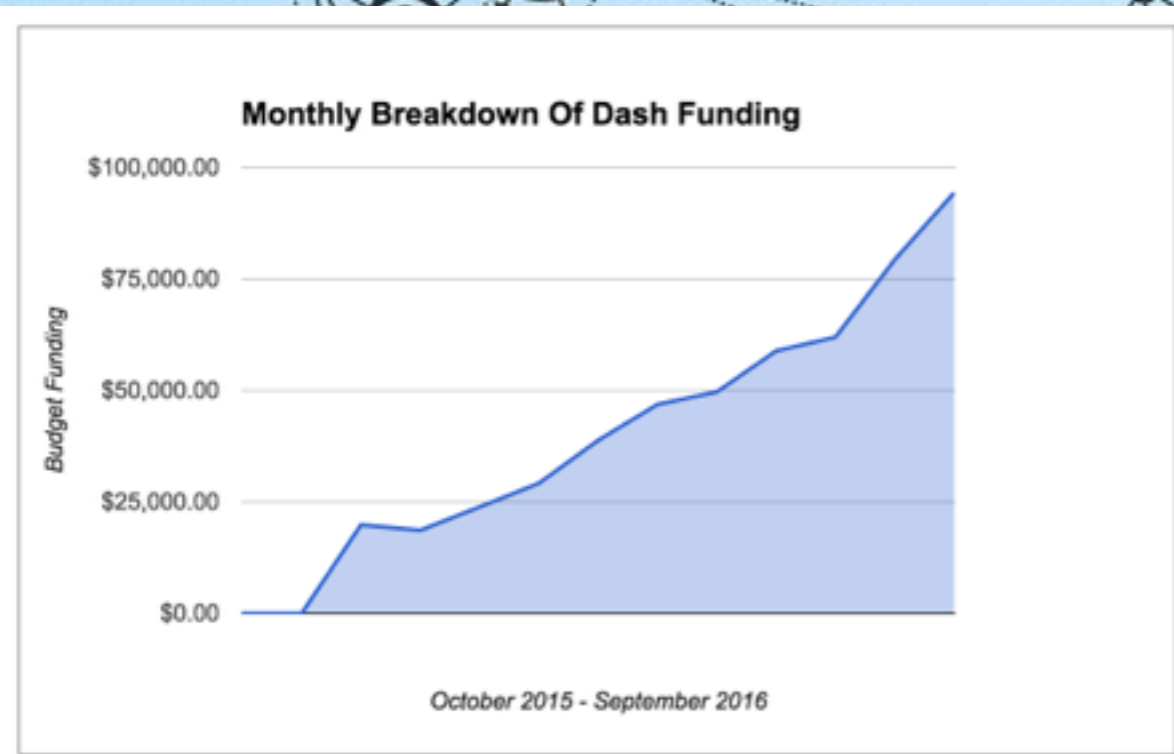

DAO Structure / Funding Allocation

Funding is allocated according to the wishes of thousands of master node operators

Dash Decentralized Self Funding Mechanism

- \$1.2MM funding per year at current valuations (entire network)
- Introduces a feedback loop which expands network funding when good decisions are made

V13 - What Is Dash Evolution?

- User friendly crypto currency
- Decentralized eCommerce
- Fully web / mobile enabled
- Decentralized competitor to PayPal and Google Wallet

 **InstantSend**

 **PrivateSend**

 **MasterNodes**

 **SentinelEngine**

 **WebWallet**

 **DASH Chat**

Technology Comparison

	PayPal	Bitcoin	Dash
Web / Mobile access	Yes 	No* 	Yes 
User Accounts	Yes 	No 	Yes 
Instant payment processing	Yes 	No 	Yes 
Pay to user	Yes 	No 	Yes 
Decentralized	No 	Yes 	Yes 

* unless via centralized gateway

Sneak Peak! Mini Tour Of Evo

Welcome

Funds

Explore all of the features of the DashPay prototype. Including Registration, Validation of the account, login, friending, pay-to-alias and pay-with-dash buttons.
